

SITE CHARACTERIZATION SAMPLING
FOR CONTAMINATED MATERIAL MANAGEMENT PURPOSES
ALTER B412

TRUAX FIELD
MAY 28, 2020

For project XGFG 182004 no soil and groundwater samples will be collected. All the intended construction activities involve upgrading interior lighting, fire suppression and other power systems. The work will require no soil or groundwater disturbances. Therefore, no sampling is needed for this project shown as building 2 on the attached map.
